This session will engage participants in a film screening (one hour) and discussion of this documentary inquiry into the life and legacy of the Louisville-based civil rights and civil liberties activist. Braden's experiences as portrayed in the film raise questions about regional identity and highlight what Jacquelyn Hall and others have written about as the "long civil rights" struggle—linking issues of race with those of civil liberties, gender, sexuality, peace, and environmentalism from the end of World War II through the late 20th century.
